Sen. Testin Continues to Earn Recognition for His Dedication to Healthcare

Wisconsin Academy of Family Physicians Is the Latest Group to Laud Testin

Madison, WI – The Wisconsin Academy of Family Physicians (WAFP) recently selected Senator Patrick Testin (Stevens Point) as a Friend of Family Medicine. WAFP cited the Senator’s support for STEP therapy reform, telehealth, and the renewal of the Prescription Drug Monitoring Program (PDMP) as some of the reasons for his selection.

“Access to health care is a key priority of mine,” said Senator Testin. “I’ve enjoyed working with my colleagues and health care professionals to increase access to many different treatments – especially in rural areas.”

WAFP, which has over 2,900 members across the state, joins the Wisconsin Public Health Association (WPHA) and the Wisconsin Association of Local Health Departments and Boards (WALHDAB) in recognizing Senator Testin’s contributions this session.
